Juana Valentina Torres Parrado

Frontend / Full Stack Developer — Angular · React · JavaScript · TypeScript

Bogotá, Colombia | +57 318 557 8754 | juanavtp0216@gmail.com | linkedin.com/in/juana-valentina-torres-p-91b89b273

PROFESSIONAL SUMMARY

Systems Engineer with hands-on experience in Frontend and Full Stack development using Angular, React, JavaScript, TypeScript, Node.js, and MongoDB. Proven experience integrating user interfaces with backend services, version control with Git/GitHub/GitLab, cloud application deployment, Agile methodologies (Scrum), code quality testing (SonarQube), and CI/CD workflows. Currently completing an undergraduate degree in Mathematics, with strong analytical skills for solving complex problems.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Java, Python, C, HTML5, CSS3, SQL, R

Frameworks & Libraries: Angular, React, Node.js

Databases: MongoDB, SQL

Tools & Methodologies: Git, GitHub, GitLab, Railway, CI/CD, Postman, Insomnia, SonarQube, Docker, Agile Methodologies (Scrum), Code Quality Assurance, Frontend-Backend Integration, REST APIs

PROFESSIONAL EXPERIENCE

Junior Frontend Contract Developer

Comisión Nacional del Servicio Civil (National Civil Service Commission) | March 2025 – Present

- Developed the new version of the SIMO web system (Support System for Equality, Merit, and Opportunity) using Angular 20.
- Managed code lifecycle and collaborated with the team using GitLab for version control and CI/CD pipelines.

Website for an Independent Makeup Artist

August 2026 | anamariatmaqullaje.up.railway.app

- Developed a commercial landing page in React for an independent professional makeup artist, including services, gallery, and contact sections.
- Used Git for version control and deployed the application to production using Railway.
- Individual project covering the full cycle, from gathering requirements with the client to production deployment.

Full Stack Developer

IBM Colombia | February 2024 – July 2024

- Collaborated on delivering the first MVP of a Content Management System (CMS), using Angular for the frontend and Node.js with MongoDB for the backend.
- Applied Agile methodology and tools such as GitHub, Postman, and Insomnia for service development and testing.
- Mentored and guided SENA trainees throughout their learning and professional development process.

Android Mobile Developer

IBM Colombia | May 2024 – July 2024

- Fixed bugs and resolved code errors, improving the stability and performance of the Android mobile application.
- Identified and resolved code smells using static analysis tools such as SonarQube.
- Worked closely with cross-functional QA, DevOps, and development teams to ensure high-quality delivery.
- Used Watsonx.AI to build baseline tests for automated code documentation generation.
- Integrated the frontend user interface with backend services, ensuring smooth data flow and functionality.

UX/UI Design & Requirements — Info-Click (Freelance)

2024

- Designed the UX/UI proposal in Figma for Info-Click, a web platform to search, compare, and connect with service providers.
- Defined the product's functional requirements, including a referral-only provider model and a per-user limit on provider views.
- Worked directly with the client as a freelancer, from understanding the business problem to the final design proposal.

EDUCATION

B.Sc. in Systems Engineering
Universidad El Bosque | 2020 – 2024

B.Sc. in Mathematics (in progress)
Universidad El Bosque | 2022 – Present

CERTIFICATIONS & ADDITIONAL TRAINING

- Quantum Artificial Intelligence — Universidad del Rosario and Université du Québec à Trois-Rivières (2025, 25 hours)
- Google Cloud Computing Foundations Academy — Google (2023, 40 hours)
- IBM watsonx Essentials — IBM (2024)
- IBM Consulting Way — IBM (2024)
- Quantum-Safe Encryption Essentials — IBM (2024)
- IBM Agile Explorer — IBM (2024)
- DevSecOps Essentials — IBM (2024)
- Docker Essentials: A Developer Introduction — IBM (2024)
- Angular - The Complete Guide — O'Reilly (2024)

ASSOCIATIONS

IEEE — Universidad El Bosque Student Branch
July 2023 – 2024

- Contributed to project development within the IEEE student group at Universidad El Bosque.
